

Performance Notes:

- 1) The computer part is only partially notated. The positioning of the notes roughly reflects pitch (top to bottom : high to low). Stems with no note heads represent rhythm only.
- 2) Metal Membranes: Any three similar objects of different pitch with a thin metal membrane (small gongs, bottom of large cans, large ashtrays, etc.).
- 3) The roto-toms sound one octave lower than notated.
- 4) In the score, numbers inside boxes mark tracks on the CD (for rehearsal purposes).
- 5) Suggested Setup:
